christian-digital-portfolio.vercel.app | Naga City, Camarines Sur, Philippines

## PROFESSIONAL SUMMARY

Software Engineer and Full-Stack Developer with 2+ years building production web and mobile applications. Specialized in Next.js, React, and TypeScript, plus client-ready WordPress/WooCommerce sites with custom themes and payment integrations. Experienced across the full lifecycle — UI/UX, backend workflows, REST API integration, and deployment on Vercel and Supabase. Ships quickly using modern AI-assisted development workflows.

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                       |                                                 |
